This program has been assigned the following Universal Activity Numbers, 0691-0000- 25-200-L04-P to 0691-0000-25-208-L01-P and has been accredited for a total of 17.0 contact hours (1.70 CEUs). Individuals may earn up to 15.0 contact hours. Attendees must register for the Conference, sign-in when required, actively participate throughout each activity, and complete and sign the Attendance Form (with an NABP eProfile Number and birth date) to receive credit. Participant’s earned credits will be posted to the CPE Monitor Website 4 to 6 weeks after receipt of all Convention paperwork. All requests for Continuing Pharmacy Education Credits must be turned in by November 2025.

---

#### **Who Should Attend**

Pharmacists, Pharmaceutical Scientists, Clinicians, Clinical Scientists, and all individuals interested in learning about the relationship between the USA and Nigeria in the pharmaceutical industry and pharmacy practice.

#### **Disclaimer**

Information in this brochure is correct at the time of printing. Should any alterations to the program or schedule be necessary, corrections will be made in the materials distributed onsite.

#### **Registration Fees**

Registration includes admission to all continuing pharmacy education programs, exhibition, and meals.

<b>Conference Registration Categories</b>	<b>ADVANCE By August 30, 2020</b>	<b>LATE From August 30 to On-Site</b>
NAPPSA Member	\$325	\$375
NAPPSA Non-Member	\$500	\$575
One Day Meeting Registration – Member	\$275	\$275
One Day Meeting Registration – Non-Member	\$400	\$400
Student Member	\$150	\$175
Student Non-Member	\$225	\$250
Banquet Gala (Spouses and Non-registered)	\$75	\$75

#### **Refund Policy**

NAPPSA will refund all registration fees minus a \$75 processing fee if cancelled in writing 15 days prior to the conference commencement (September 10, 2025). There will be NO refunds after this date.

# LEARNING OBJECTIVES

---

THURSDAY, SEPTEMBER 25, 2025

---

12:45 pm – 3: 00pm **Session #100A: Demystifying AI in Pharmaceutical Development.**  
Universal Activity Number: 0691-0000-25-200-L04-P (0.20 CEUs) Application-Based Activity.  
**Venue:** Sheraton Grand Ballroom (I and II)

- Discuss the core components of AI and how these have been integrated into pharmacy and pharmaceutical development.
- Explore how artificial intelligence can optimize the promise of precision medicine from the cellular to the genomic levels
- Discuss the ethics of AI use ranging from plagiarism to energy use (carbon emissions) and climate issues.

3:15 pm – 5: 30pm **Session #100B: Harnessing AI in Pharmaceutical Development and Education.**  
Universal Activity Number: 0691-0000-25 201-L04-P (0.25 CEUs) Application-Based Activity.  
**Venue:** Sheraton Grand Ballroom (I and II)

- Explore the implementation of AI in drug development and project management.
- Describe how those teaching pharmaceutical sciences can optimize the use of the technology in education and research so that students are prepared for a future that is already here.

---

FRIDAY, SEPTEMBER 26, 2025

---

9:00 am – 12: 00pm **Session # 200: Harnessing Artificial Intelligence for Pharmaceutical Sector Development in Emerging Economies.**  
Universal Activity Number: 0691-0000-25-202-L04-P (0.30 CEUs) Application-Based Activity.  
**Venue:** Sheraton Grand Ballroom (I and II)

**Session # 200: Harnessing Artificial Intelligence for Pharmaceutical Development in Emerging Economies.**

- Discuss how industrial pharmacists can contribute to the goal of Universal Health coverage by using new and emerging AI and digital technologies.
- Explain the role of AI in shaping Pharmacy Practice in emerging economies using Nigeria as a case study.
- Describe the critical role of the government’s policies on the uptake of AI in the Pharmaceutical Sector
- Discuss the potential value creation associated with the utilization of AI in Pharmaceutical Development within emerging economies

**Session # 300: Keynote Presentation**

- Explore the transformative role of Artificial Intelligence in the pharmaceutical industry.
- Compare and Contrast government strategies and regulatory approaches that have successfully facilitated the adoption of AI in countries across Asia and other developing regions.
- Examine real-world examples in peer nations to assess what policies, investments, and collaborations have yielded measurable success in pharmaceutical development using AI.
- Discuss actionable insights for policymakers, healthcare leaders, and private sector stakeholders to align AI innovation with national development goals and health equity.

3:00 pm – 5:30 pm **Session #400: Artificial Intelligence in Pharmaceutical Sciences.**  
Universal Activity Number: 0691-0000-25-203-L04-P (0.25 CEUs) Application-Based Activity.  
**Venue:** Sheraton Grand Ballroom (I and II)

**Session # 400: Artificial Intelligence in Pharmaceutical Sciences.**

- Discuss the relevance of AI and machine learning for today's healthcare professionals
- Explore key drivers of AI's recent growth and practical examples in drug discovery and clinical trial design
- Describe how to empower Pharmacists and Pharmaceutical Scientists in the AI landscape
- Discuss the value of Target Product Profiles in guiding Drug Development Strategy
- Describe the challenges and opportunities presented by Liposomal formulations
- Discuss how to leverage Regulatory Intelligence and Strategy to achieve marketing application approval
- Discuss how to deploy and manage technical knowledge, project logistics and regulatory strategy in developing new drugs
- Articulate current and possible future applications of AI in Pharmaceutical Development

---

SATURDAY, SEPTEMBER 27, 2025

---

**10:00 am – 12:00 pm      Session # 500: Artificial Intelligence in Pharmacy Practice.**

Universal Activity Number: 0691-0000-25-204-L01-P (0.20 CEUs) Application-Based Activity.  
**Venue:** Sheraton Grand Ballroom (I and II)

- Define core concepts of artificial intelligence (AI), machine learning (ML), and large language models (LLMs) relevant to pharmacy practice.
- Identify common fears and barriers to AI adoption in pharmacy—such as data privacy concerns, fear of clinical inaccuracy, job displacement, and lack of technical familiarity—and describe practical, pharmacist-centered strategies to overcome them using ethical safeguards, peer learning, and low-risk implementation models.
- Describe how prompt engineering enhances pharmacy operations, marketing strategy, and patient communication.
- Demonstrate construction of effective AI prompts tailored to specific pharmacy tasks such as medication therapy management (MTM), immunization, and operational support.
- Evaluate real-world case examples showing measurable improvements in care delivery, efficiency, or profitability in pharmacy practice using AI tools.
- Recognize legal and ethical considerations (e.g., HIPAA, professional accountability) when using AI in pharmacy.
- Develop a personalized action plan to safely and effectively integrate AI and prompt engineering into one's independent pharmacy workflow.

**10:00 am – 12:00 pm      Session # 600: Artificial Intelligence in the workplace.**

Universal Activity Number: 0691-0000-25-205-L04-P (0.20 CEUs) Application-Based Activity.  
**Venue:** Gateway Boardroom

- Discuss where to find resources to use AI in the workplace
- Summarize social/emotional learning and how to build and manage a team
- Describe strategies for leveraging AI in developing and giving effective talks
- Explore tactics for building trust and empathy and overcoming presentation anxiety
- Discuss ways of enhancing one's professional brand and communication skills

**2:00 pm – 4:00 pm      Session # 700: Artificial Intelligence and Pharmacy Business.**

Universal Activity Number: 0691-0000-25-206-L04-P (0.20 CEUs) Application-Based Activity.  
**Venue:** Sheraton Grand Ballroom (I and II)

- Discuss opportunities for the application of AI in Independent Pharmacy Practice.
- Explain the need for community pharmacists to be equipped with the knowledge of AI and other emerging digital technologies and the benefits to their professional and career advancement.
- Describe the new PBM legislation updates and the implications for Independent Pharmacy Owners

---

SUNDAY, SEPTEMBER 28, 2025

---

**8:45 am – 10:45 am      Session # 800A: AI and Clinical Therapeutics.**

Universal Activity Number: 0691-0000-25-207-L01-P (0.20 CEUs) Application-Based Activity.

**Venue:** Sheraton Grand Ballroom (I and II)

- Describe key use cases for artificial intelligence (AI) in healthcare.
- Interpret findings from landmark clinical studies demonstrating the diagnostic and decision-support capabilities of AI.
- Evaluate the performance and limitations of generative AI in oncology decision- making.
- Discuss challenges and future directions for integrating AI into clinical cancer care.
- Examine the landscape of generative AI and its application in pharmacy practice.
- Evaluate strategies to mitigate potential risks associated with the use of generative AI.
- Recognize the potential scope of future impacts of AI on healthcare roles and how pharmacy practice may evolve in response to emerging technologies.

**11:00 am – 12:00 Noon      Session # 800B: AI and Clinical Therapeutics.**

Universal Activity Number: 0691-0000-25-208-L01-P (0.10 CEUs) Application-Based Activity.

**Venue:** Sheraton Grand Ballroom (I and II)

- Describe key use cases for artificial intelligence (AI) in healthcare.
